TRADE! You Like to Patronize Those Concerns who are in Business to Stay

It's human to expect that such business establishments always stand back of the wares they sell.

The advertising in this Directory is suggestive of the stability and permanency of the advertisers.

Frauds, fakes, get-rich-quicks and other schemers have little use for directory advertising. It lives too long.

The modern City Directory is a business institution. It occupies a place peculiarly its own. It is as necessary to the progress and development of a city generally as anything naturally would be which deals with such a fundamental as the citizens themselves.

If you are not advertising your business in the Directory, may we explain how and why it will pay you?

Please!

Do Not Lend Your CITY DIRECTORY

IT COSTS YOU MONEY—Every Time It is Loaned

The practice of lending your City Directory, in a great measure, is responsible for the increasing cost of Directory Service.

The reason is:—

There is a definite cost involved in the making of the **Directory** of Your City.

This cost must be absorbed by the subscribers—be they one—or be they 1000.

If there were but **One Subscriber** to the **City Directory—the one subscriber** would of necessity have to absorb **The Whole Cost.**

If there were **100 Subscribers**—each one would have to absorb **1/100th Part of the Whole Cost.**

If there were **1000 Subscribers**—each one would have to absorb **1/1000th Part of the Whole Cost.**

From which it is obvious that the **Greater** the number of subscribers—the **Lesser** the cost to each.

And

It is also obvious that the **Lesser** the number of subscribers—the **Greater** the cost to each.

Every time you loan your City Directory the **Less Necessity there is For the Borrower to Subscribe for the Service.**

More Borrowers result in **Fewer Subscribers** which means **Increased Cost.**

HERCULEAN TASKS . . .

have been accomplished by the American people. We built our nation, won its wars, established its industry, and raised our standard of living to a degree where it has the envy of the world. None of this could have been accomplished without coordinated effort. Where many people work collectively towards a single objective, it is as necessary to success as the objective itself. It is a powerful force that makes our printing plant efficient. Every order we receive provides us with a new objective—to produce with economy truly excellent printing. To reach each new objective takes coordinated effort on the part of everyone working on the order. Such effort has made our plant a symphony of smoothness that means three things to you—excellent work, speed, and more value per dollar spent.

INTRODUCTION

FLANIGAN-PEARSON CO., publishers of the Champaign and Urbana City Directory, present to subscribers and the general public, this, the 1940 edition.

Confidence in the growth of this community's industry, population and wealth, and in the advancement of its civic and social activities, will be maintained as sections of this Directory are consulted, for the Directory is a mirror truly reflecting Champaign and Urbana to the world.

The enviable position occupied by the Champaign and Urbana City Directory in the estimation of the public, has been established by rendering the best in Directory service. With an unrivaled organization, and having had the courteous and hearty coöperation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the Champaign and Urbana Directory will fulfill its mission as a source of authentic information pertaining to the community.

Five Major Departments

The five major departments are arranged in the following order—

THE MISCELLANEOUS DEPARTMENT presents lists of city and county officials; statistical reviews; manufacturing, trade and civic surveys; and a history of the University of Illinois.

THE ALPHABETICAL LIST OF NAMES of residents and business and professional concerns is included in pages 1 to 340, on white paper. This is the only record in existence that aims to show the name, marital status, occupation and address of each adult resident of Champaign and Urbana, and the name, official personnel, nature and address of each firm and corporation.

THE BUYERS' GUIDE, beginning opposite page 340 and separately paged from 1 to 32, on goldenrod paper, contains the advertisements of leading manufacturing, business and professional interests of Champaign and Urbana. The advertisements are indexed under headings descriptive of the business represented. This is reference advertising at its best, and merits a survey by all buyers eager to familiarize themselves with sources of supply. In a progressive community like Champaign and Urbana, the necessity of having this kind of information immediately available, is obvious. General appreciation of this fact is evidenced by the many reference users of this City Directory service.

THE CLASSIFIED BUSINESS DIRECTORY is included in pages 401 to 446. This department lists the names of aa business and professional concerns in alphabetical order under appropriate headings. This feature constitutes an invaluable and indispensable catalog of the numerous interests of the community. The Directory is the common intermediary between buyer and seller. As such it

plays an important part in the daily activities of the commercial and professional world. More buyers and sellers meet through the Classified Business Directory than through any other medium.

THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE, covers pages 447 to 532. In this section the names of the streets are arranged in alphabetical order; the numbers of the residences and business concerns are arranged in numerical order under the name of each street, and the names of the householders and concerns are placed opposite the numbers. The names of the intersecting streets appear at their respective crossing points on each street. Features of this section are the designation of tenant-owned homes and the designation of homes and places of business having telephones.

Community Publicity

The Directory reflects the achievements and ambitions of the community, depicting in unbiased terms what it has to offer as a place of residence, as a business location, as a manufacturing site and as an educational center. To broadcast this information, the publishers have placed copies of this issue of the Directory in Directory Libraries, where they are readily available for free public reference, and serve as perpetual and reliable advertisements of Champaign and Urbana.

The Champaign Directory Library

Through the courtesy of the publishers of the Champaign City Directory, a Directory Library was recently established in the offices of the Champaign Chamber of Commerce, for free reference by the general public. This is one of more than 500 Directory Libraries installed in the chief cities of the U. S. and Canada by members of the Association of North American Directory Publishers, under whose supervision the system is operated.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the City Directory as an advertising medium, with assurance that it will bring a commensurate return.

CHAMPAIGN and URBANA

HISTORICAL, DESCRIPTIVE AND STATISTICAL SKETCH OF THE TWIN CITIES

CHAMPAIGN

Statistical Review

FORM OF GOVERNMENT—Commission.

POPULATION—1930 U. S. Census, 20,348; local estimate at present, 23,000. American-born, 97%.

AREA—10 square miles.

ALTITUDE—743 feet above sea level.

PARKS—23, with total of 78 acres.

ASSESSED VALUATION—$14,052,648, with $5.48 per $100 tax rate.

FINANCIAL FACTS—4 banks, with total deposits of $11,589,000 (June 30, 1939), and total resources of $12,707,000 (June 30, 1939).

POSTAL RECEIPTS—Approximately $250,000 annually.

TELEPHONES IN SERVICE—10,100.

INDUSTRY—Chief industries of city and surrounding territory: Manufacturing and agriculture. 27 manufacturing establishments, employing 391 workers, paying wages of $458,167 annually, and having products valued at $3,604,996 (last report). Principal manufactured products: Drop forgings, gloves, bleachers, soy bean oil, road machinery, cement products, academic apparel, and railroad registers.

TRADE AREA—Retail area has radius of 35 miles, and population of 100,000.

NEWSPAPERS—3 daily and Sunday.

HOTELS—3, with total of 354 rooms.

RAILROADS—4: Illinois Central, Big Four, Wabash, and Illinois Terminal.

HIGHWAYS—U. S. 45 and 150; State 10.

AMUSEMENTS—Largest auditorium in city seats 3,000 persons. 5 moving-picture theatres, with total seating capacity of 7,000 persons. 3 golf courses.

HOSPITALS—1, with 126 beds.

EDUCATION—1 senior high school and 1 junior high school. 3 parochial schools. Number of pupils in public schools, 4,500; in parochial, 350.

PUBLIC LIBRARIES—1, with 33,450 volumes.

CITY STATISTICS—Total street mileage, 97, with 66 miles paved. Miles of gas mains, 88; sewers, 130. Number of water meters, 9,392; light meters, 11,800; gas meters, 9,286 (Champaign and Urbana). Capacity of water works,

8,000,000 gallons; daily average pumpage, 2,820,000 gallons; miles of mains, 63.6 (Champaign and Urbana).

General Review

Champaign originated in 1854, when the Illinois Central Railroad built its main north and south line two miles west of the village of Urbana. The village started at the railroad and was incorporated at that time as the village of West Urbana, its name being changed to Champaign in 1857. In 1860 the village of Champaign was incorporated as a city.

Champaign owes its growth to an act of the legislature in 1867, which awarded the University of Illinois to Champaign County. The steady growth of the University has been reflected in the growth of Champaign. The original location of the University was in Urbana adjacent to Champaign, but due to the expansion of the University, part of its grounds and buildings are on property originally part of Champaign.

Champaign is served directly by the main line of the Illinois Central Railroad; by the Indianapolis-Peoria division of the Big Four; by the Wabash; by the Danville-St. Louis division of the Illinois Terminal (electric) Railroad; and by bus lines, including the Greyhound Line to Chicago, St. Louis, Indianapolis, Peoria and other points.

Three State paved highway routes, Nos. 10, 25 and 39, converge in Champaign, coming from different directions. These routes, and the many paved County highways radiating in all directions, together with excellent transportation facilities offered by rail and bus routes, make Champaign one of the leading down-state traffic centers.

Due to its location in a rich section of east central Illinois and to the large student body attending the University, Champaign has a large retail business. Its stores offer exceptional stocks of merchandise to customers who come from a wide area to shop here. The 1930 U. S. Census of Distribution showed Champaign-Urbana to be the seventh market in the state, with annual sales amounting to more than $24,000,000. Champaign stores do 75% of this business.

Champaign and Urbana are served jointly by all utilities, and together have one of the finest sanitary districts and sewage-disposal plants anywhere. This plant has been widely copied by other cities.

With the commission form of government, a modern police department, and its fire department on the platoon system, Champaign is up-to-date and well equipped to handle its City business.

The large stadium and the men's gymnasium of the University being located in Champaign bring the thousands of people who attend athletic events at the University directly to Champaign. The football games in the fall and the basketball games in the spring attract immense crowds from all sections of the state.

The Chamber of Commerce Airport furnishes facilities for visitors who travel to and from Champaign, Urbana and the University. This airport is recognized by the Government as safe and properly-equipped.

URBANA

Statistical Review

FORM OF GOVERNMENT—Aldermanic.

POPULATION—1930 U. S. Census, 13,060; local estimate at present, 13,500. American-born, 97%.

AREA—9 square miles.

ALTITUDE—743 feet above sea level.

PARKS—4, with total of 102 acres.

ASSESSED VALUATION—$7,000,000, with $5.83 per $100 tax rate.

FINANCIAL FACTS—1 bank, with deposits of $2,071,000 (June 30, 1939), and resources of $2,245,000 (June 30, 1939).

CHURCHES—20, representing leading denominations.

INDUSTRY—Chief industries of city and surrounding territory: Agriculture and education. 3 manufacturing establishments, employing total of 500 workers, with principal products as follows: Railroad cars, athletic goods castings and machinery.

TRADE AREA—Retail area has radius of 35 miles, and population of 100,000.

NEWSPAPERS—1 daily and Sunday.

HOTELS—2, with total of 130 rooms.

RAILROADS—4: New York Central, Wabash, Illinois Central and Illinois Terminal.

HIGHWAYS—U. S. 45 and 150; State 10.

AMUSEMENTS—Largest auditorium in city seats 7,000 persons. 2 moving-picture theatres, with total seating capacity of 1,500 persons. 3 golf courses.

HOSPITALS—5, with total of 600 beds.

EDUCATION—University of Illinois. 9 public schools, including 2 senior high and 1 junior high. 1 parochial school.

CITY STATISTICS—Total street mileage, 90, with 60 miles paved. Miles of sewers, 200. Fire department has 10 men, with 1 station and 7 pieces of motor equipment. Police department has 12 men, with 1 station and 3 pieces of motor equipment. Police Radio Station WAGR.

General Review

When Champaign County was created in 1833, Urbana was founded as its county seat.

The name of the county and county seat was derived from the city of Urbana, Ohio. The name originated from the word "urbanity." The court house and the county offices were established at Urbana soon after its founding, and the business of Champaign County has been conducted here ever since.

When the legislature of the state of Illinois decided to take advantage of the provisions of the "Morill Act" providing land grants for state institutions of higher learning by creating such an institution for Illinois, the enterprising

citizens of Urbana and Champaign County succeeded in locating it permanently at Urbana.

The educational facilities in Urbana commence with the public grade schools, include two modern high schools, and conclude with the University of Illinois. The University campus and adjacent experiment fields consist of 2,642 acres of land, with 90 splendid buildings, an enrollment of 11,500 students, 1,200 professors and instructors, and a large additional staff of employees.

Urbana has won fame as a residential city. Probably no city anywhere has a larger percentage of college-trained citizens. The percentage of illiteracy in Urbana is considerably less than 1%, while 36% of the children of school age are enrolled in the two high schools. Furthermore, fully 85% of the residents of Urbana are home-owners.

Urbana, "the Crossroads of the Corn Belt," has 60 miles of paved streets. All the streets are well lighted by a system of ornamental boulevard lighting standards. Sanitation is unsurpassed, and the water supply comes from deep wells.

Urbana is also a city of parks. While the University campus may be considered one large park, Urbana has a park system of unusual attractiveness. The principal park is Crystal Lake Park, comprising 110 acres of shrubs, oaks, grass and water made easily accessible by beautiful drives and walks. The clear water of the lake affords good boating in summer and skating in winter, while its pavilion, shelter house, modern playground for children, and an outdoor swimming pool bring visitors from many miles away. The other parks, while not so large, are very attractive.

In Urbana 20 churches guide the spiritual welfare of the citizens; the Boy Scouts, Girl Scouts and Camp Fire Girls organizations provide recreation and training for the children, while the Association of Commerce, the Rotary Club, the Exchange Club and the numerous fraternal societies afford means for the practice of good-fellowship characteristic of Urbana.

Although Urbana is outstanding for its civic activities, it is also represented by sound commercial and industrial concerns. No city has more solid financial institutions. Urbana's building and loan associations are among the foremost in the country. Every branch of retail trade is represented among the stores that provide for the wants of the community. Leading manufactured products of Urbana are knock-down bleachers, butter and other dairy products, athletic equipment and supplies, electrical supplies, chemical supplies, paints, castings, dehorners, cigars, harness, ice cream, burial vaults, mausoleums, high-powered microscopic lenses, scientific instruments, x-ray apparatus and concrete ornaments. Urbana is also the home of Urbana Laboratories, Inc., noted as makers of seed cultures.

In Urbana are located shops of the N. Y. Central Lines, which employ the largest number of men in any single industry of the city.

Urbana possesses very adequate transportation facilities, including the Peoria & Eastern Railway, giving services to the east and west; the branch line

of the Wabash running to Sidney, and the Illinois Central affording frequent services to Chicago and to the South. "A train your way every hour of the day" is provided by the Illinois Traction system, with accommodations east and west. Connections are made at Glover by trolley with the Chicago & Eastern Illinois Railroad for Chicago and St. Louis and by bus at Tolono with the main line of the Wabash for St. Louis and Detroit. Three State paved highways and many paved County roads extend in all directions, and bus service is given on all three State highways.

Among other points of interest in Urbana besides the University of Illinois and its many attractions, are the Samuel T. Busey Library, the Outlook Tuberculosis Sanitarium, Cunningham Home for Children, Mercy Hospital, the Margaret Carle Memorial Hospital, one of the most up-to-date sanitary disposal plants in the country, a 110-acre, 18-hole golf course and country club; the Wesley Foundation, the State and Government experiment stations, the Urbana Park Board's $100,000 outdoor swimming pool, the finest in Illinois, and the $250,000 First Methodist Episcopal Church.

An authority writes: "Urbana, home of the most important manufacturing plant in Illinois—that plant is the University of Illinois. Its raw materials are youth and ambition. Its product is men and women."

Urbana and Champaign—The Home of the University of Illinois

The home of the University of Illinois is one of the best-known convention communities in the state. Because of the presence of the University here it is estimated that more than 150,000 visitors come here annually to attend conventions of district, state, national and international importance.

BRIEF HISTORY OF THE UNIVERSITY OF ILLINOIS

The University of Illinois was 70 years old March 2, 1938—young for an educational institution, yet its growth has been rapid and its progress as a teaching and research institution has been impressive.

Not by its work of teaching undergraduates, nor by its achievements in laboratories of research, nor by its training of faculty and graduate members for higher places of responsibility, nor because of its position as center of trade and professional advancement in its own state, but by all of these things, has the University of Illinois come to be known as one of the great institutions of the world.

The statements of an Eastern educational expert, who made a recent visit to the campus, that the entire Yale campus could be put inside the walls of the Illinois armory and locked up; that if a student made the fatal mistake to register for two classes for consecutive hours in buildings on opposite sides of the campus, it would take him the better part of a class period to get from one to the other; that the membership in the student band itself is larger than the total enrollment of many favorite Eastern schools—are somewhat exaggerated. However, this is near enough to the truth to give some idea of the magnitude of the scheme on which the system is run.

It is worth study, at least, this university from which approximately 2,000 persons are given their diplomas annually, and the research discoveries of which have brought it to the attention of the public, even in other parts of the world.

The State of Illinois, although progressive in settling its virgin prairie and formulating a durable state organization, was the last in the old Northwest Territory and in the Corn Belt group to establish a state university. Michigan, Indiana, Wisconsin, Minnesota and others had founded schools and turned out classes of graduates before Illinois legislators—largely through the efforts of the late Jonathan Baldwin Turner, a Jacksonville (Ill.) educator—established a State school in the twin cities of Champaign and Urbana in Champaign County.

Back in 1868 the Illinois Industrial Institute came into being. Governor Oglesby had approved the act incorporating the State University in 1867. A board of regents was chosen and the Rev. John Milton Gregory, then president of Kalamazoo College in Kalamazoo, Michigan, was named as the first regent.

The University opened March 2, 1868, with an original registration of fifty students. The first curriculum was offered by a faculty of three. During the first term, instruction was given in algebra, geometry, physics, history, rhetoric, and Latin.

The new institution grew rapidly, and by the end of the term, had 77 students and another faculty member. It stepped into the forefront of institutions linking practical laboratory work with theoretical classroom teaching. In 1868 a chemical laboratory was provided, and in 1869 laboratory work in botany began. The

Alma Mater, portrayed by one of Illinois' most famous alumni, the late Lorado Taft, dean of American sculptors, who was graduated from the University of Illinois in 1879. Above the base inscription "To thy happy children of the future those of the past send greeting" stands Alma Mater with arms outstretched, while clasping hands behind her is a male figure in leathern apron representing the sciences and a female figure in classic robes representing the classics.

first shop instruction in any American university was begun in 1870, when a mechanical shop was equipped, and the next year wood shops and a testing laboratory were erected.

In 1870 the trustees voted to admit women students, and that fall 24 co-eds were enrolled. Certificates of accomplishment had been awarded students completing work, but in 1877 this was changed with the awarding of diplomas and conferring of degrees. In 1885 the name of the institution was changed from Illinois Industrial University to the University of Illinois.

Growth of the academic departments has been steady and rapid. Graduate work began in 1892. Summer sessions started in 1894. Studies in law were organized as a school in 1896 and as a college in 1900. The School of Music was organized in 1897, and now is a part of the College of Fine and Applied Arts, which was organized in 1931. Business training was started in 1900, and organized into the College of Commerce in 1915. The School of Education was organized in 1905, and became a college in 1918. The School of Physical Education was organized in 1932. In 1897 the Library School was created by the acquisition of the School of Library Economy, which had been organized at the Armour Institute in Chicago in 1893, and was the fourth library school to be established in the nation. Journalism instruction was started in 1902, and the School of Journalism was organized in 1927.

A Chicago campus, now a part of the world's great medical center including the Cook County Hospital and other famous institutions, was started in 1896, when the University of Illinois acquired the Chicago College of Pharmacy, which had been founded in 1859 as the first pharmacy school west of the Alleghanies. It was known as the School of Pharmacy until 1932, when it achieved college status. In 1897 the College of Physicians and Surgeons of Chicago, established in 1881, became affiliated with the University of Illinois, and in 1913 became a part of it. A department of dentistry was formed in the College of Medicine in 1901, and in 1905 it was organized separately as the College of Dentistry.

Meanwhile organized research has developed alongside student training on the basis that the duty of a great institution of this sort is not only to train new workers in every field, but also to discover and develop new knowledge. Agricultural research was begun at an early date, and the Agricultural Experiment Station was organized in 1888. The oldest soil experiment fields in the nation, the Morrow plots, have been in continuous cultivation at the University of Illinois since 1876. The Engineering Experiment Station, first of its kind in America, was established in 1903. The Bureau of Educational Research was established in 1919, the Bureau of Business Research in 1921, and the Bureau of Community Planning in 1934. The University is headquarters for the Illinois State Natural History Survey, the State Water Survey, and the State Geological Survey.

Outstanding researches have been made and are being carried on in agriculture, railway engineering, civil engineering, heating and ventilation, chemistry, chemical engineering, medicine, and many other fields. Illinium, the first chemi-

cal element discovered in America, was announced from the University of Illinois laboratories in 1926.

Of every operating dollar, 13.6 cents is spent directly for organized research. In addition, many researches are financed in whole or in large part by individuals and groups (including industrial and commercial), and the results of these are published by the University and become public property for the benefit of everyone.

Student enrollment has increased rapidly in the 72 years since the University first opened its doors. The original 50 students increased to 77 by the end of the first term. Ten years later the enrollment had passed the 400 mark. By 1898 there were nearly 1,600 students. In 1918 there were nearly 5,600. During the first semester of the 1938-39 school year the resident enrollment was 13,760, the largest in the University's history. Included in this were 12,618 students on the Urbana-Champaign campus and 1,142 in Chicago.

The main campus, at Urbana-Champaign, is 50 miles northeast of the geographical center of the state, and 128 miles south of Chicago. The twin municipalities form one community of some 35,000 inhabitants, with the university located partly in one and partly in the other. The campus today comprises 430 acres, with adjacent experimental farms totaling 1,127 acres. The Chicago campus has slightly more than two acres, on which are located five buildings. Experimental farms in various parts of the state bring the University's total acreage to 2,225. The main campus has some 77 major buildings, 36 minor buildings, and 24 houses. The University's plant as a whole is worth more than $31,000,000. At Urbana-Champaign are the general administrative offices; the Colleges of Liberal Arts and Sciences, Commerce, Education, Engineering, Agriculture, Law, and Fine and Applied Arts; the Schools of Journalism, Music, and Physical Education; the Library School, and the Graduate School. In Chicago are the Colleges of Medicine, Pharmacy and Dentistry.

Dr. Gregory headed the University as regent from its opening until 1880. He was succeeded by Dr. Selim Hobart Peabody, who, after a year as regent pro tempore, was appointed regent, and held the post until 1891. Dr. Thomas Jonathan Burrill served as acting regent from 1891 to 1894. The head of the University became known as president when Dr. Andrew Sloan Draper took the post in 1894. He was succeeded in 1904 by Dr. Edmund Janes James. On his retirement in 1920, Dr. David Kinley, who had served a year as acting president because of the illness of President James, became the institution's president and served until 1930, when he retired. Dr. Harry Woodburn Chase was president from 1930 until he resigned in 1933. Dr. Arthur Hill Daniels served as acting president for one year. Dr. Arthur Cutts Willard was chosen president in 1934.

Control of the University of Illinois is in a board of trustees consisting of the Governor and State Superintendent of Public Instruction acting ex-officio, and nine elective members chosen by, and responsible to, the people of the state.

The City Directory

Is Indispensible in Your Credit and Collection Departments

Printed Salesmanship and Orders

To win orders requires more influence than salesmen's occasional calls can exert. Sales resistance is obstinate. Competition steps in. The battle is on! The salesmen are up against it, unless—consistent, well planned, well printed advertising has taken the field in advance, like sturdy tanks before an advancing army.

Sales resistance is battered down by well-timed folders, booklets, broadsides, illustrated letters, skillfully campaigned and descriptive of the salesman's house and the quality and usefulness of its product. Printed salesmanship clears the field for personal salesmanship.

It plays a most vital part in any salesman's success. Prospective customers usually insist upon knowing something more about the salesman's house and product. With the help of advance advertising, confidence is inspired. Salesmen accomplish more.

Stimulate and close orders by allying, with personal sales calls, interesting and informative sales literature, mailed regularly.

Ask us for constructive suggestions.

Directory of Householders, Occupants of Office Buildings and Other Business Places,

INCLUDING

A Complete Street and Avenue Guide

1940

Copyright, 1940, by Planigan-Pearson Co.

In the following list the streets are arranged in alphabetical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or houseowner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable, in apartment homes the number denotes the number of the apartment. In all streets both sides of the street are included in one list. The profession or business of individuals or firms is given only at their respective place of business; to find occupation of others refer to Alphabetical List of Names.

Numerical Streets are compiled in with Named Streets in their regular Alphabetical order.

The symbol ◎ following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

The Δ preceding names denotes householders and places of business having telephones.

Over Half a Century of Service

For more than half a century our records have served the people of Champaign County. Throughout all these years, daily postings have kept our abstract records completely and accurately up-to-date.

ABSTRACTS OF TITLE and Title Searches, prepared in modern and approved forms from these records will protect your titles and safeguard your investments. Every abstract of title prepared through our facilities is accurate, reliable and merchantable.

WE ARE OWNERS of several sets of abstract records, the only complete set of Abstract Records in existence in Champaign County. We are members of the Illinois Title Association and of the American Title Association.

«-:-»

Title Guarantee Insurance

«-:-»

The personnel of this organization are all residents of Champaign County, Illinois, having been born, reared, and educated in this community, and are primarily concerned that its clientele receive the highest degree of title service, which is possible to render.
